Customer Remarks

Provider	User Reference No.	Customer Comments
National Bank of Bahrain	2026-CC-1122	Customer consistently pays on time; no arrears recorded.
Bahrain Islamic Bank	2026-CC-7890	Excellent repayment record; eligible for higher credit limit.
ila Bank	2026-CC-2345	Account opened recently; strong early repayment history.

Notes:

- Name variations are minor and consistent, showing no risk of identity mismatch.
- Provider contact details ensure transparency and accessibility for dispute resolution.
- Customer remarks reconfirm Rashed's "good profile" with positive repayment behavior and eligibility for enhanced credit facilities.

GLOSSARY OF TERMS

Term	Definition
Arrears/ Defaulted Accounts	Credit facility accounts where payments have been missed or are overdue.
Available Credit	Total credit card limit that has not yet been used by the customer.
Balloon Amount	Lump sum balance due at the end of a credit facility's tenure.
Collateral Value	the value of assets pledged against a loan or credit facility.
Debt-to-Income Ratio (Burden Ratio)	Percentage of monthly debt obligations compared to monthly income. Excludes government liabilities.
Installment to Income Ratio (DSR)	Ratio of total monthly installments to monthly income, used to assess affordability.
Legal Case (Open/ Close Date)	Dates marking the initiation and resolution of a legal dispute regarding a credit facility.
Maturity Date	Scheduled termination date of a loan or credit facility.
Missed Payments	Number of scheduled payments not made by the due date.
Outstanding Balance	Remaining unpaid portion of a loan or credit card.
Pending Inquiries (PSI)	Credit applications awaiting final decision from providers.
Rescheduled Facility	Loan terms adjusted due to market conditions, with repayment ability intact.
Restructured Facility	Loan terms renegotiated due to the borrower's financial difficulty.
Reliability Score (Kafeel)	AI-driven score (0-100) reflecting repayment consistency, income stability, and employment history.
Syndicate Backing Index (Kafeel)	Peer-vouched collateral circle support level, indicating community-verified trust.
Predictive Default Probability (Kafeel)	AI-calculated likelihood of default based on historical repayment and behavioral data.
Write-Off Amount	Debt cancelled by the provider, no longer collectible.

DISCLAIMER & REGULATORY OVERSIGHT

Disclaimer

This report has been generated by the **Kafeel Credit Intelligence System**, directly integrated with the **eKey platform** and verified by the **Information & eGovernment Authority (iGA), Kingdom of Bahrain**.

The following points apply:

- Lending decisions remain the sole responsibility of the financial institution reviewing this report.
- Kafeel provides verified data sourced from government records, financial institutions, and automated bill settlements. While accuracy is ensured through eKey integration, final interpretation rests with the institution.
- Kafeel assumes no liability for damages or losses arising from reliance on this report.
- Decisions to grant, restructure, or reschedule a credit facility are determined exclusively by the policies of the reviewing institutions.

Data Retention

- Credit information is retained for a maximum of **five (5) years** from the date of account closure or settlement, or for the duration mandated by Bahraini law.
- Kafeel's enhanced reliability metrics (Reliability Score, Syndicate Backing Index, Predictive Default Probability) are maintained for **24 months** of historical analysis to support transparency and predictive modeling.

Verification Authority

- All data presented in this report is authenticated through **eKey identity verification** and cross-checked against **Information & eGovernment Authority (iGA) system logs**.
- The **Central Bank of Bahrain (CBB)** licenses and supervises Kafeel as an Ancillary Service Provider, ensuring compliance with national financial regulations and consumer protection standards.
- This document is digitally signed and validated by the **Kafeel App**, and can be cross-verified against system logs for authenticity.

Currency

- All amounts presented in this report are denominated in **Bahraini Dinars (BHD)**.

CUSTOMER RIGHTS

As a verified customer under the Kafeel Credit Intelligence System, authenticated via eKey and supervised by the Central Bank of Bahrain (CBB), you are entitled to the following rights:

Access to Reports

- You may generate your Institutional Risk Report at any time through the Kafeel App by pressing “Generate Institutional Risk Report”.
- Reports are automatically updated with the latest data from government and financial sources.
- Each generated report is valid for 30 days from the date of issue.

Dispute Resolution

- You may raise a dispute regarding any information in your report immediately upon detection.
- The concerned institution, in coordination with Kafeel and iGA, must review the dispute promptly and correct verified errors without delay.
- Once corrections are made, you are entitled to receive an amended report instantly through the app.

Right to Amendments

- All disputes and corrective actions are logged within the Kafeel system for transparency and regulatory compliance.
- You have the right to track the status of your dispute in real time.

Data Protection & Oversight

- All personal and financial data is protected under Bahraini law, verified through eKey identity authentication.
- Customers retain full control over who can access their report via the Kafeel Privacy Vault.
- Oversight and compliance are ensured by the Central Bank of Bahrain (CBB), guaranteeing adherence to national financial regulations and consumer protection standards.

Right to Transparency

- You have the right to view the scoring methodology (Reliability Score, Syndicate Backing Index, Predictive Default Probability) used in your report.
- You may request explanations of how your score was calculated and which factors influenced it.

Right to Equal Treatment

- All customers are entitled to equal access to credit reporting services, free from discrimination.
- Institutions must base decisions on verified data only, not assumptions or unverified information.

Right to Historical Records

- You may access your past reports generated within the last 24 months through the app.
- Historical data is retained for transparency and to support long-term financial planning.

CERTIFICATION AND CLOSING SECTION

This report has been generated by the Kafeel Credit Intelligence System, fully integrated with the eKey platform and authenticated by the Information & eGovernment Authority (iGA), Kingdom of Bahrain. Oversight and compliance are ensured by the Central Bank of Bahrain (CBB), which supervises Kafeel as a licensed Ancillary Service Provider.

Digital Certification

- **Digital Signature:** Applied by the Kafeel App at the time of generation.
- **Authentication Verification:** Customers and institutions may cross-verify this report against system logs on the Kafeel App.
- **Validity Period:** Each report is valid for 30 days from the date of generation. After expiry, a new report must be generated through the app.

(Scan to verify authenticity – displays “KAFEEL VERIFIED” with reference, ID, validity, and authority)

Closing Statement

This document reflects the most recent and verified financial and governmental data available through eKey integration. It is intended to support transparent, fair, and regulator-compliant credit evaluation. Lending institutions remain solely responsible for their decisions, but customers are guaranteed:

- Full transparency of scoring and data sources.
- Real-time updates whenever a new report is generated.
- Regulatory protection under Bahraini law, supervised by the CBB.
